

Bowman High School

Bridge to the Future- September 30, 2011

On Friday, September 30th, over 80 students, parents, and district staff members attended the Bridge to the Future kick off at Boston Scientific Corporation. Boston Scientific is a multinational corporation which specializes in the development, manufacturing and marketing of medical devices. The goal for the event was to promote and highlight Boston Scientific's new outreach program for African American students.

Seven Bowman students attended this informative and exciting event. All in

attendance were treated to a complimentary lunch following the presentations.

Bowman student Sebastian Shaffer said, "I didn't know what to expect from the program. I was surprised about how they are creating stuff that saves lives. I can relate to that. I really want to participate in the Legacy program so I can have help with math."

Bowman student Taalibah Muhammad said, "I want to become a nurse and am interested in the summer internships to help me get into nursing school."
